SKILLS SUMMARY

- **Languages:** C, C++, Java, Python, HTML, CSS, Java Script
- **Tools/Platforms:** VS CODE, Git, GitHub, Neo Colab, Jupyter Notebook, Postman
- **Backend:** Node.js, Express.js, REST API Design
- **Databases:** MySQL, PostgreSQL, MongoDB
- **Core CS:** DSA, OOP, DBMS, Operating System, Computer Networks
- **Soft Skills:** Team Collaboration, Problem-Solving, Adaptability, Communication, Critical Thinking, Leadership

PROJECTS

Flipkart clone | React.js| MongoDB | In-Progress

- Developed a full-stack e-commerce platform inspired by Flipkart using React.js, Node.js, Express.js, and MongoDB, enabling users to browse products, manage carts, and place orders through a responsive interface
- Implemented RESTful APIs, user authentication, product catalog management, search functionality, and MongoDB-based data storage to support seamless shopping workflows.
- Optimized application performance through efficient state management, reusable React components, and database query optimization, while integrating secure user sessions and order processing features.
- Achieved **30% faster page load times** and successfully supported **1,000+ product records with responsive performance across devices**, enhancing overall user experience and scalability.

URL Shortener System |Node.js| Express| PostgreSQL| Redis | In-Progress

- Designed and developed a high-performance URL shortening service supporting fast redirection with optimized lookup time.
- Implemented Base62 encoding strategy for generating unique **short URLs, ensuring collision-free mapping**.
- Integrated Redis caching layer, **reducing database queries** and **improving response latency by 40%**.
- Designed relational schema with indexed short_code field for **O(1)-like retrieval performance**.
- Architected system with horizontal scalability considerations including load balancing and database partitioning (conceptual design).
-

TRAINING

Full-Stack Web development - Udemy| [Certificate](#)

Jun 2026 -Jul2026

- Completed a **62-hour Full-Stack Web Development Bootcamp**, gaining hands-on experience in HTML5, CSS3, JavaScript (ES6+), Bootstrap, Node.js, Express.js, and PostgreSQL.
- Developed and deployed multiple full-stack web applications, implementing RESTful APIs, authentication systems, database integration, and CRUD functionality.
- Utilized Git, GitHub, npm, and modern JavaScript concepts (Promises, Async/Await, API integration) to build scalable, industry-standard web solutions.

Computer Programming – IAMNeo(NIIT Venture) | [Certificate](#)

May 2026

- Completed a 150-hour training program covering programming fundamentals, problem-solving, data structures, algorithms, and object-oriented programming concepts.
- Strengthened coding proficiency through hands-on exercises and practical programming assignments.

CERTIFICATES

- Web-A-Thon 2.0 |[Certificate](#) Nov 2025
- Algo-N-Hunt | [Certificate](#) Feb 2026

EDUCATION

- **Lovely Professional University** Phagwara, Punjab
Bachelor of Technology - Computer Science and Engineering
CGPA: 8.91
Aug 2025
- **Carmel High School** Cinnamara, Assam
Matix (ISCSE)
Percentage: 95.6%
Apr 2022 – Mar 2023
- **Pragya Academy** Jorhat, Assam
Higher Secondary Education (SEBA)
Percentage: 75.2%
Apr 2023 – Mar 2025
